Internship Programme Committee

International Fund for Agricultural Development (IFAD)

Rome, Italy

Dear Hiring Committee,

I am writing to express my strong interest in the Internship Program at the International Fund for Agricultural Development. As a third-year student pursuing an **Integrated M.TECH in Computer Science and Engineering** at **Jaypee Institute of Information Technology**, I am eager to contribute my technical skills and problem-solving abilities to an organization making a tangible impact on global development.

I have hands-on experience in full-stack web development, database systems, and data structures, complemented by leading real-world projects such as a public transportation system and a real-time chat application. As the current IEEE Webmaster at my institute, I am responsible for redesigning and maintaining a professional-grade website with a focus on accessibility and responsiveness. These experiences have honed my collaboration, coding, and leadership abilities—skills that align with IFAD's technology and innovation goals.

I am particularly drawn to IFAD's commitment to reducing rural poverty and promoting sustainable agricultural growth. I am confident that my academic background, coupled with my eagerness to learn and apply tech-driven solutions, will allow me to contribute meaningfully during this internship.

Thank you for considering my application. I have attached my resume for your reference. I look forward to the opportunity to support IFAD's mission and gain valuable insights from the experience.

Sincerely,

Pranshu Sharma
